Professional Experience

Hebrew Union College–Jewish Institute of Religion – 2008-Present (10yrs)

National Web Manager

- My primary responsibility is the efficacy of the college-institute's website and services. I manage our web servers, content systems, and provide meaningful insights into web traffic and demographics. As the Web Manager I work together with program directors, department heads, and faculty on our four campuses to develop and maintain valuable resources for our students, alumni, staff, and donors.

Intellect37, LLC – 2016–Present (2yrs)

Solutions Developer; Partner

- At Intellect37 we currently facilitate a niche market in law and medicine. In my role as Solutions Developer I design and implement the server platforms, networks, and software used in our services. I also communicate directly with clientele to train employees, improve workflow, and resolve any technical issues that may arise.

Vantage Land Title – 2005-2007 (2yrs)

Jr. Web Applications Developer; Jr. Systems & Network Administrator

Other Notable Experience

Association for the Assessment of Learning in Higher Education – 2012-2015 (2yrs)

Website Administrator; Developer (Side-work)

- Managed website content and hosting. Ensured smooth operation of basic web services.
- Created various custom web systems, including a membership & conference registration portal, and collaborative tools to enable our educators' "Communities of Practice".

“Hive13” Hackerspace – 2009-Present (9yrs)

Founding Member

- A hackerspace (also referred to as a hacklab, makerspace, or creative space) is a location where people with common interests, often in computers, technology, science, digital art or electronic art, can meet, socialize and/or collaborate. Hackerspaces can be viewed as open community labs incorporating elements of machine shops, workshops and/or studios where hackers can come together to share resources and knowledge to build and make things.”
- For more information, please visit: <http://hive13.org>, <http://wiki.hive13.org>, <http://hackerspaces.org>

Cincinnati's “2600” Meetup Group – 2005-Present (13yrs)

Senior Member

2600 meetings provide a forum to teach, learn, and discuss events in technology. Meetings are open to anyone regardless of age or level of expertise. We convene at the Hive13 hackerspace every first Friday.

- As an active senior member I help to organize the monthly meetings and occasionally present
- *Past topics include:* Man in the Middle with Ettercap & TCPDump, Hosting a secure website using Debian Linux, How to play Dwarf Fortress, and Photobioreactors: An Overview
- For more information, please visit: <http://cinci2600.org>, <http://2600.org>

Education

Live Oaks Institute of Technology – 2004 - 2006

Vocation: Computer Service & Networking

Milford High School – 2002 - 2006

Degree: General Education
